TUITION:

The school's operating cost per student is approximately \$6,000. The tuition charges listed below reflect reduced costs resulting from the organized church's financial support directly to this school. There is additional significant support from the church organization that is not easily calculated, such as curriculum development and teacher in-service.

Tuition is an annual cost that is divided into 10 monthly payments. For students not attending a full year, monthly tuition payments will be figured by calculating the total tuition for the period of actual attendance and divided by the number of payments to be made.
